

MESHA'S VILLAGE

May Newsletter - Issue 2

If you can walk you can dance, if you can talk you can sing. - A saying from Zimbabwe

Team Member Spotlight:

Greetings everyone! Allow me to introduce myself, my name is Silas McIntire and I recently joined Mesha's Village on an internship role. I will be helping out with public relations. I am a 20 year old student at The University of Maine. I'm studying language development and child psychology. I hope to start a career teaching English as a second language internationally. I hope you are as excited as I am to be a part of this amazing organization! We aim to be there for kids who need someone the most. Growing up and coming of age, I've realized that not everyone in this world has had the same privileges and opportunities as me. I will use these opportunities to capitalize on my privilege so that I can promote true equality for all. I lived in Tanzania for three months teaching at the kindergarten level, I was inspired by my students to work hard to become qualified to teach at higher levels in low income communities. I would like to thank each and every supporter of Mesha's Village for their committed contributions to the education of these children!

Events Update:

The Mesha's Village Team is excited to announce that we will be traveling to Tanzania in June! We will be on the ground working directly with the kids to ensure that they have all the necessary resources that will set them up for success. If anyone has any clothing, shoes, books, or school supplies, to donate, we can always put them to good use. Please email us at meshasvillage@gmail.com if you'd like to donate anything for us to bring to Tanzania in June. Amazon Prime is a great way to do this as you can send donations directly to Madison. All of our children attend Haradali Pre and Primary school so we will visit again and connect with the school

educators and administration. Haradali is an English medium school, meaning that the students are immersed in their second language, all of their classes are taught in English. This method has been proven very effective for bilingual language development.

Student Spotlight:

Mariam is a 6 year old girl who began her education at Haradali Pre and Primary School last fall. Her outgoing attitude and bright spirit encourages the other kids to be the

best they can be. That heartwarming smile is contagious! She is working hard in the pre unit class and is earning top marks in her class; we are confident that she will grow to become a successful student! We would like to commit a special thanks to Kiran Padmaraju, Mariam's sponsor. Kiran is a Gold member of Mesha's Village and Mariam's education would not be possible without them!
